## Station Furniture In

Foothill College's FM station, KFJC, has taken delivery of its new furniture, custom built by Bob Ballou, the station's student station manager.

According to Ballou, the materials for the console desk and speaker enclosure cost about \$200. He and his father made the furnishings in their garage workshop at 3945 El Cerrito rd., Palo Alto.

Ballou said that the furniture would have cost over \$600 to purchase it through commercial sources.
