

College FM Broadcasts Are Changed

MOUNTAIN VIEW —

Two phases of Foothill College's curriculum have conflicted, bringing a revision of the school FM radio station's broadcast schedule.

When the station, KFJC went on the air last week it broadcast 8 till 10 p.m. However, the transmitter was affected by equipment used in an evening electronics class, causing interference.

The station is now broadcasting 5 till 7 p.m. Monday through Thursday. Broadcasting on a frequency of 88.5 megacycles, the station has an output of 10 watts.
