"ART AND MICROCOMPUTERS"

ART SOFTWARE REVIEW

Members of Art, Computers, and Education will give demonstrations of four software packages representative of art applications for use on microcomputers.

9:00 CyberLOGO (Turtlegraphics)

9:45 CeeMac

10:30 Designer's Toolkit

11:15 Additional software

Admission: \$5. With DASB card: \$4.

LUNCH BREAK 12:00 - 1:00

Noontime viewing of EM, a video portrait of David Em, computer graphics artist, who has worked at the Jet Propulsion Laboratory. Donald Rothenberg, one of the directors, will be available to answer questions.

CHILDREN'S ART ON AND OFF THE COMPUTER

Children, grades 1 - 6, will learn how an artist talks to a computer and how a computer is used to make art. They will then use their knowledge in making art off-the-computer.

1:00 - 2:30

Fee: \$5.

Enrollment for both sessions is limited. For reservations, send checks payable to Euphrat Gallery to Euphrat Gallery  
De Anza College  
Cupertino, California 95014

Cosponsored by the Euphrat Gallery and Art, Computers, and Education, a non-profit organization which provides a network of support for artists and educators interested in helping adults and children learn about computers in art.

This event is in conjunction with the exhibit ARTECH and Art by Hand which is on display at the Euphrat Gallery April 26 - June 5. This is an interactive exhibit of high-tech art and handmade art, with each enhanced by the presence of the other. Viewers can create their own art with an Atari 800 and with an Apple II. A schedule of videotape showings, events, lectures, workshops can be obtained at the Gallery or by calling (408) 996-4836.
