## Speed Radio For Foothill

Foothill Junior College District today announced a seven day broadcasting schedule for the 10-Watt radio station the college hopes to put on the air from the Mountain View campus early next year.

The college board of education last week approved the expenditure of \$4,250 for equipment to place the student-operated station on the air. The college must still obtain permission to operate the educational station from the Federal Communications Commission.

Tentative plans call for operation of the station from the basement of old highway school at El Camino Real and Calderon ave. in Mountain View. The college has obtained clearance from Moffett Field to erect an antenna 100 feet high from the top of the college buildings.

The broadcasting schedule, as announced by college officials, calls for a "sign on" time of 8 p.m. Mondays through Fridays.

The students will air "study music" for an hour, followed by special programming for another hour, and will conclude the day with a news broadcast from 10 p.m. to 10:15 p.m.

On weekends, Foothill College officials hope to open broadcasting at 3 p.m. with classical and jazz records, followed by news of the week, dinner music, more classical music, and study music from 8:30 a.m. to 9:59 p.m. Sign-off time will be the same as week days at 10:15 p.m. after news of the day is reported.
